FOR IMMEDIATE RELEASE

Date: Wednesday, July 15, 2026

Road Construction: County Road to Undergo Chip Sealing

The Logan County Engineer's Office announces that county forces will be chip sealing the below roads beginning **Thursday, July 16, 2026, at 7:00 a.m. through 5:00 p.m.**, weather permitting. There will be no overnight closures.

During these operations, emergency and local traffic will be maintained using flagging personnel. No thru traffic will be permitted. Motorists should anticipate delays and are encouraged to plan alternate routes.

When traveling through these work areas, we ask all drivers to **slow down and use extra caution**. You will encounter loose stone for a few days, and please note that these areas will have **unmarked no-passing zones until fall**.

For optimal safety and to help the chip seal cure effectively, motorists are encouraged to travel a maximum of 20 mph on the first day the chip seal has been applied and to travel a maximum of 30 mph for at least seven days after the chip seal has been applied.

Road Scheduled for Chip Seal:

<u>Roads Name</u>	<u>From / To</u>	<u>Date(s)</u>
County Road 57	US 68/ County Road 9	07/16/2026

Please remember that all scheduling is subject to weather conditions. We appreciate your understanding and cooperation as we work to improve our roads, and we apologize for any inconvenience this may cause.
